

The Northeastern States Research Cooperative (NSRC) is a competitive grant program supporting cross-disciplinary, collaborative research in the Northern Forest—a 30-million-acre working landscape that is home to more than two million residents and stretches from eastern Maine through New Hampshire and Vermont and into northern New York. NSRC addresses the importance of the Northern Forest to society and the need to work collaboratively with the people who live within its boundaries, work with its resources, use its products, visit it, and care about it.

The NSRC funds research with clear links to application and use by stakeholders and decision-makers in the Northern Forest region.

## NSRC CONTACTS

**Mark Ducey**, Director  
New Hampshire, [mark.ducey@unh.edu](mailto:mark.ducey@unh.edu)

**René Germain**, Director  
New York, [rhgermai@esf.edu](mailto:rhgermai@esf.edu)

**Anne Jefferson**, Director  
Vermont, [anne.jefferson@uvm.edu](mailto:anne.jefferson@uvm.edu)

**Anthea Lavallee**, Director  
Hubbard Brook Research Foundation,  
[alavallee@hubbardbrookfoundation.org](mailto:alavallee@hubbardbrookfoundation.org)

**Aaron Weiskittel**, Director  
Maine, [aaron.weiskittel@maine.edu](mailto:aaron.weiskittel@maine.edu)

**Daniel Dey**  
Forest Service, [daniel.c.dey@usda.gov](mailto:daniel.c.dey@usda.gov)

## What We Do

NSRC connects Forest Service and non-Forest Service researchers with stakeholders to benefit the environment and economy of the Northern Forest region through applied research.

Over the years, NSRC has funded over 300 projects based at more than 50 organizations and worked with over 1,000 community partners.

### Our Focus Areas

- Community and Economic Resilience
- Decision Support and Management Tools
- Forest Health and Resilience
- Social Science for Effective Public Engagement

## Our Research

NSRC funds one- to three-year, problem-driven research projects aimed at enhancing forest and community resilience.

Supported projects cover a broad range of topics encompassing forest biodiversity & connectivity, climate change mitigation & adaptation, environmental justice, invasive species/pests, sustainable forestry, recreation & land use impacts, and wood products innovation & market development.

### Indigenous Forest Knowledge Fund

Grants from the NSRC Indigenous Forest Knowledge Fund support education and training of Indigenous youth in applied forest research and Traditional Ecological Knowledge (TEK) to advance outreach and economic programs for Tribal Nations and Indigenous communities.
